

Model Insurance Scheme Policy

In association with QBE Insurance Ltd, we have arranged a tailored, flexible insurance policy with market leading covers and extremely competitive premium rates

Model Retailers

We currently work with clients that have multiple shops through to the largest UK retailers with Stock levels of over £3 million. Our scheme policy can cover your Buildings, Stock, Contents, Loss of Profits, Goods in Transit, Employer's, Public and Products Liability

Model Manufacturers

Your manufacturing process may involve machinery or small soldering jobs which many insurers see as risky work. Having worked with model manufacturers for over a decade, both QBE and ourselves are understanding and accepting of the risks involved

Working from Home

For enthusiasts working from home, whether you are retailing or manufacturing, our policy can accommodate your needs and can include cover for personal collections

Stock cover at Exhibitions

Many of our clients travel the length and breadth of the UK attending exhibitions. In partnership with CNA Europe we can cover your Stock while in transit to an exhibition, whilst on your trade stand, and also overnight. Annual premiums start as low as £75 + IPT

Liability cover at Exhibitions

Whether you need £2 million or £5 million Public Liability cover for exhibitions our scheme can accommodate your needs ensuring that if a member of the public is injured or their property damaged you are fully protected

USA Exposure

Standard policies usually exclude cover for sendings to the USA, but in the modern world with retailers selling their stock online, cover has become essential
